

C
Isn't it funny, we're all chasing money,
F C
When really it doesn't exist?
F C
It's just computer digits and ink stuck on paper,
Dm G
And metal in bright, shiny discs.

C
But we're told to believe, it's what we all need,
F C
To bring happiness our way.
F C
So we pollute the seas, the air, destroy trees
Dm
And make thousands and thousands and
G
thousands of people// starve each day.

C
So how can it be, we're locked in this nonsense
F C
Chasing what doesn't exist?
F C
Is it because we're all basically stupid?
Dm G
Well, you can guess what my answer is.

C
It's not digits and paper that function as money
F C
But belief in their power that does
F C
And teachers and bankers and decision-makers
Dm G
Feed us this, like it comes from God.

S6 F 3 1 Em G

C G
But if we open our hearts and our minds to be free
Am FM7
Not wage slaves steered by fear and greed
F C
We can create with others who are on this journey
F G
A path of beauty, joy and peace.

The first line shows the notes under the text. Chords are related to the capo as the base point

C G
Make banks and finance work for people
Am FM7
Instead of for profit alone
F C
Cancel the debt on all of the countries
Dm
So that everyone can have clean water and
G
food and a home

C
But of course, if you want, you can just carry on
F C
Tearing the World apart
F C
Moving the digits and pieces of paper
Dm G
In a battle without a heart.

S6 F 3 1 Em G

C G
But if we take time for our hearts and our minds
E G
To get a sense of a life without greed
Am FM7
F C
We'll find that it's better working together
F G Am
So that we can all live in peace.
